**Subject:** Village at Vigneto

Dear People,

We are writing to you concerning the proposed development, Villages at Vigneto, proposed by El Dorado Benson, LLC (El Dorado). Unfortunately, just like the illusionary and mythical Spanish El Dorado, this development is not real nor realistic.

We have lived in the area, the high desert, for the last eleven years and have come to understand how fragile this area is.

Everyone wants a piece of the "American Dream". We all know that this development and the Whetstone Ranch are planned to be bedroom communities of Tucson, offering low home prices and more lot space. There is no other large scale employer in the area, except for Fort Huachuca and they are cutting back on civil employees.

Nothing wrong with this dream except it will turn into a nightmare if the size of it does somehow happen. There is not enough water to substantiate this much development. Look to California, their over development has caused the dire situation they are now in.

Now the developers can hire professionals to say and try and prove that Vigneto will work and the Conservationists can do the same and say it cannot work. Do you folks want to take a chance and let the size of this development proceed, knowing that it will probably destroy this area.

If you all believe that this development is the right answer for this area, and that this development will work, then by all means, go ahead. We are older folks and by the time this project is completed, we will probably not be alive. But your children and your children's children will be and they are the ones who will have to pay for their fathers and mothers misjudgments.

The San Pedro River basin is dying. We know this for a fact because we help monitor its health and see the changes happening. We know most of you don't live in the area and have not seen what we are writing to you about. So before you sign off on any reports that are given to, take a physical look at what we are saying. We are not against development, however, not on the scope that Vigneto is planned.

Let your conscience be your guide and reality be your goal!

Thank you for your time.
